If you're a big fan of female figures with leather biker gear, then you'll be beside yourself when you see the new Biker Girl figures from ZC World.

Shimei comes outfitted in a blue leather racer jacket and pants ensemble, white tank top, and racing boot/feet (spare feet included) and black and blue race helmet with flip up face/visor. Being that she's a ZC Girl, she's armed with a Skorpion Auto-Pistol with spare mags, a stiletto knife, and a couple smoke grenades.

Azami has more of a "Harley" biker feel to her, with an all black leather jacket and pants, white tank top, black biker boot/feet (spare feet included), black biker helmet with Japanese artwork, and of course a shotgun with shoulder slung sheath and a silenced ivory handled .45 pistol with tac-light.

FIGURE NOT INCLUDED

Up till now, Phicen has released basic female figures and variations of the Laura figure (aka their rendition of Tomb Raider, Lara Croft). Well, they have a new figure out by the name of Salina, and she's interesting to say the least.

Following in the footsteps of ZC World, this one is a female sniper/assassin. Her outfit consists of a black corset style leotard, black leather jacket, black duster coat, lace up boots, tie, and skull belt (OK, she's not a tactical sniper).

Weapons wise, she carries two hip holstered pistols, and a Walther WA-2000 Sniper Rifle with two removable scopes. Another fine addition is the laptop computer.
